Hi David,

Please see the attached chart, which outlines the cases for which we do and do not have ISSP documents. It includes the relevant driver names and DOB to assist with your searches, as well as incident dates. To narrow the scope, we're willing to limit our requests to records dated prior to each incident, as we agree that subsequent reports or deactivations would not be relevant.

We also wanted to clarify that after reviewing the HireRight reports currently in our possession, we believe it is most appropriate to pursue our subpoena to Lyft directly in order to obtain Lyft's deactivation data. HireRight's records only reflect deactivations tied to five categories of sexual assault under the ISSP. In contrast, Lyft retains deactivation data for all categories of sexual assault, including the 16 categories that Uber deliberately chose to exclude from the ISSP's scope. These broader deactivations are highly relevant to Plaintiffs' claims, given that Uber designed the ISSP in a way that ensured it would not receive this additional information from Lyft.

Let us know if you have any questions, or if you'd like to schedule another meet and confer on these issues.

Thanks.

Jamie:

Thank you for your email. Although this week is quite difficult for me, I can chat next week. Let me know your availability and I will coordinate here.

All best,
David

Subject: Uber MDL 3084 - Third Party Subpoena to Lyft

Good afternoon David,

My colleague Sam Hoefs and I are coordinating the third-party subpoenas issued in this matter and would like to schedule a global meet and confer on behalf of the bellwether plaintiffs regarding Lyft's objections and responses.

Would you kindly provide your availability for next week? I am available on the afternoon of June 16 and most of the day on June 17.

Thank you.
